'kind to you, kind to our planet'

Letsanify Instant Sanitiser & Cleaning Solution

Our mission is to spread the word about the many benefits of Hypochlorous Acid (HOCl) **Letsanify** Instant Sanitiser and Cleaning Solution.

To see the success of our **Letsanify** range of products and **Letsanify** instant sanitiser and cleaning solution being used, safeguard everybody not only against this VIRUS, but other bacteria and viruses that challenge us all in maintaining a healthy lifestyle we should be able to enjoy.

Letsanify Instant Sanitiser and Cleaning Solution a new product from Letsanify which is the backbone of the **Letsanify** range.

'kind to you, kind to our planet'

Welcome to Lets-Sanify, one of the largest and most respected independent manufacturers of 100% natural and vegan chemicals in the UK.

We support a green economy for sustainable development.

Lets-Sanify launched the Green Revolution under the slogan: A green economy for sustainable development. Under this initiative, we seek to become a global provider for the new green economy, to enhance a country's competitiveness and sustainability and preserve its environment for future generations.

Through this initiative, we aim to become one of the world leaders in this area as well as a centre for the export and re-export of green products and technologies, and to maintain a sustainable environment to support long-term economic growth while protecting the environment.

Introducing our new sanitising and cleaning range!

We have carefully formulated a range of sanitising and cleaning products that can handle any given situation leaving surfaces safe, clean and sanitised.

USING THE **FORCE OF NATURE** TO **FIGHT VIRUSES & BACTERIA**

Letsanify Instant Sanitiser and Cleaning Solution is our new liquid sanitiser which is a revolutionary, natural, advanced antiseptic and disinfectant that kills 99.99% of all bacteria and viruses including SARS, E. COLI, MRSA and according to leading UK laboratory MELBEC, it kills CoV-2 and COVID-19.

Its key ingredient is hypochlorous acid (HOCl) a natural particle created by our own immune system to eradicate invasive organisms and fight infection. HOCl is generated naturally by the human body as a defence mechanism to attack viruses' bacteria and other pathogens. Upon contact they release a burst of bactericidal chemicals including its most powerful weapon HOCl. It kills the pathogen by tearing down the cell membranes and proteins and is harmless to the human body.

HOCl is up to 100 times more effective at killing harmful bacteria and viruses than standard household disinfectants. It exceeds the performance of alcohol-based hand sanitisers currently being used. It provides an instant kill & sterilisation so you can be reassured once applied to the hands or surfaces the risk of spread and infection is minimised.

Letsanify Instant Sanitiser and Cleaning Solution contains no alcohol or harmful chemicals and can be applied without the need to use protective clothing (PPE). This safe and effective multi-purpose liquid works with our **Lets-sanify** range of products in spraying large areas, and surfaces. Creating a fine mist of micro droplets 50 times smaller than the thickness of human hair. Costing pennies, safe to the environment, the skin and body with no smell or mess.

THE SAFER ALTERNATIVE TO **CHEMICAL SANITISERS** SAVING YOU TIME AND **KEEPING YOU SAFE**

Letsanify Instant Sanitiser and Cleaning Solution is an exceptional sanitiser killing 99.99% of viruses on contact. This safer alternative to chemical sanitisers is alcohol free, environmentally friendly, made from 100% natural ingredients, environmentally friendly, vegan and halal certified.

Letsanify Instant Sanitiser and Cleaning Solution is completely safe for people with sensitive skin and all ages, as well as pets. When used frequently as part of your daily routine, creates a safer and cleaner environment.

We understand protecting ourselves and those around us is a top priority. In the advent of the recent pandemic, we are all facing many new challenges to ensure our premises, our property and ourselves remain clean and safe. Easy to use, convenient and perfectly safe for mothers with babies and children. Kitchen floors and other such surfaces including highchairs benefit from its gentle and effective action.

Letsanify Instant Sanitiser and Cleaning Solution has been tested in hospital microbiology departments worldwide, and independent UK labs and complies with all necessary certification for both human and animal use.

In business we want to know our staff and visitors are safe and being protected from the spread of dangerous viruses and bacteria. **Letsanify** Instant Sanitiser and Cleaning Solution is a superior and effective sanitisation formula. It works by killing 99.99% of viruses and bacteria on contact.

Lets-sanify is our range of products: **Lets-sanify** Mini, **Lets-sanify** Midi, **Lets-sanify** Nano these in conjunction with our **Letsanify** Instant Sanitiser and Cleaning Solution (known by its chemical name of HOCl). These create a mist of micro droplets 50 times smaller than the thickness of human hair.

Costing pennies its economical in usage, is safe to the environment, and creates no smell or sticky residue which is common with alcohol-based gels/liquids currently used. HOCl is a natural substance our bodies produce as a first-line defence against pathogens including bacteria and virus. It is a hundred times more effective than chlorine, bleach and sanitiser gels and liquids currently being used. The mist destroying these germs and viruses on contact.

Our range has been created to be a permanent feature and partner in your house, office, car, to kill 99.99% of all viruses, bacteria, and fungus simply, quickly and efficiently whilst also controlling the dangerous spread of these, by sanitising on contact.

They have been designed to be practical and simple to use, requiring a minimum set up time. They are economical and with our **Letsanify** Instant Sanitiser and Cleaning Solution are kind to you and our planet.

LETSANIFY

SCIENTIFIC STUDIES

Letsanify Instant Sanitiser and Cleaning Solution has been tested in hospital microbiology departments worldwide, also independent UK labs and complies with all necessary certification for both human and animal use.

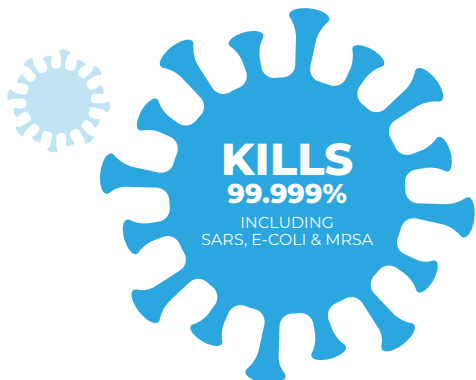

Where conventional cleaning is simply not adequate, Letsanify Instant Sanitiser is effective at killing a wide range of pathogens including SARS, E. COLI, MRSA and according to leading UK laboratory MELBEC, it kills COVID-19.

It is no wonder businesses and organisations across the globe are choosing it for the disinfecting and sanitising of their premises. It complies with all necessary certification for both human and animal use.

Scientists at major universities and medical centres in the UK and Worldwide have been able to show these effects and benefits to healthcare professionals and patients and in healthcare environments. Effectiveness is very solidly supported by the evidence of applications in hospitals and clinics in the EU and Asia, as well as in the US.

HOCl is FDA /EPA/CE approved for skin, food and surface contact in the correct concentration. It has been proven to be effective against both bacteria & virus but also against harmful pathogens including E. coli, Salmonella, Listeria, MRSA, Staphylococcus aureus Klebsiella pneumoniae, Covid-19 and more.

As a biocide (a chemical that exists in our bodies naturally), HOCl is 100% safe and non-irritant as it is PH neutral to our skin. Hypochlorous acid has received a lot of attention recently for being an inexpensive, effective, available, toxic free, and practical liquid.

SENSITIVE SKIN HOW CAN OUR HYPOCHLOROUS (HOCl) ACID HELP? HAPPY SKIN FOR A HAPPY YOU!

Letsanify Instant Sanitiser and Cleaning Solution (HOCl) antimicrobial superpowers make it useful for fighting acne and skin infections. As an anti-inflammatory, it's soothing, repairs damaged skin and speeds up wound healing and scarring. It can be a great option for acne sufferers, as well as those dealing with chronic inflammatory skin conditions such as eczema, rosacea, and psoriasis.

A lot of conventional products for the skin commonly contain harsh irritants like fragrances and other ingredients that can trigger allergies and asthma.

SENSITIVE SKIN TYPES

Another key point to take note of is that since HOCl is naturally found in your body, it is considered universally tolerable and fit for the most sensitive types of skin.

MASKNE (FACE MASK ACNE)

As a gentle antimicrobial, hypochlorous acid has gained popularity during the coronavirus pandemic helping to reduce skin conditions that are exasperated by the wearing of masks.

All of the sanitisers and atomiser sprays in our **Lets-sanify** range use the highest quality grade of HOCl called (**Letsanify Instant Sanitiser**). Our **Lets-sanify** range of units can then be used to spray a refreshing fine mist consisting of (HOCl), onto your hands, face, and body to protect and ensure proper functioning of the skin barrier.

IT'S AN EXTRA ON-THE-GO PROTECTIVE MEASURE

Our **Letsanify** atomiser sprays are an easy and effective way to kill 99.99% of bacteria & viruses that challenge us all in maintaining a healthy lifestyle, that we should all be able to enjoy. Simply spray the refreshing fine mist onto your hands and face for a safer day.
